EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brain O'Shaughnessy on September 7, 2004.

On line 2 of claim 10, the phrase "the buffer mixture" was changed to --the mixture--.

On line 2 of the abstract, the word "comprise" was changed to --include--.

At the top of page 1 of the specification, the following sentence was inserted so as to claim priority to a prior provisional application: --This application claims priority under 35 USC 119(e) to provisional US application serial no. 60/434,816, filed on December 20, 2002--.

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: The specification to which the oath or declaration is directed has not been adequately identified. The declaration fails to check one of the boxes stating that the specification is either "attached hereto" or was "filed as United States application number...". See MPEP § 601.01(a). In addition, priority to provisional application serial no. 60/434,816 has not been claimed.

3. The following is an examiner's statement of reasons for allowance: Application serial no. 10/720,255 is being allowed for the reasons of record in the last Office action mailed on June 17, 2004, and since none of the prior art teaches or fairly suggests a buffer composition consisting essentially of benzethonium chloride, a buffering agent, sodium chloride and water, wherein the

composition is a solution that exhibits a decrease in pH of about 0.1 units or less and no precipitate formation when subjected to 15-35 kGy gamma irradiation .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
